## STUDENT

## PROFILE

Aspiring Software Developer with a keen interest in field of Generative AI, pursuing a B.Tech in Computer Science at VIT Bhopal. Certified in Generative AI , Problem Solving (Intermediate) , and MATLAB , with hands-on skills in Microsoft Azure , Event Planning , and Team Management. Experienced as the President of The Fusion Club , demonstrating leadership in driving innovative campus initiatives.

## EDUCATION

B.Tech in CSE Core, Vellore Institute of Technology, Bhopal  
September 2023 - May 2027

## CERTIFICATIONS

- Introduction to Generative AI from Google
- Python Certificates from Kaggle
- Problem Solving from HackerRank

## PROJECTS

### HealthMitra

- College Project made by me, where I alone worked on the Backend of the application in Python
- This Web-App was aimed to help user by tracking their day to day medications
- This app also helped by keeping a record of old medical prescriptions of the user
- This gave me experience of Firestore Database and its other features

### Body-Symptom-Detector

- This is a web-app developed by me, which aims to detect ChickenPox based on the symptoms seen by the patient
- It uses Vite and React.js
- It analyzes and stores the condition of patient on basis of his questionnaire results

### LifePath - Real Life Decision Simulator (Ongoing)

- Built a web-based simulator empowering teens (15-19) to practice decision-making through interactive storytelling and real-life scenarios.
- Designed engaging story modes with branching choices addressing peer pressure, emotional well-being, and real-life dilemmas.
- Led end-to-end development: frontend in React.js, backend with Firebase, and real-time sync for classroom & multiplayer modes.
- Secured early traction with live MVP launch, tested by users with positive feedback despite minor bugs.

## EXTRA CURRICULAR ACTIVITIES

President, The Fusion Club, VIT Bhopal
