SUMMARY

AI & Full Stack Developer passionate about building real-world applications in healthcare, education, and interactive systems. Experienced in developing scalable web applications, AI-powered tools, RAG pipelines, multiplayer systems, and intelligent recommendation platforms using React.js, Firebase, Python, Flask, and modern AI workflows. Strong interest in Generative AI, Machine Learning, MCP Servers, and building impactful technology products with user-focused solutions. Experienced as President of Fusion Club at VIT Bhopal University

TECHNICAL SKILLS

- | | | |
|--------------|----------------------|--------------------|
| • Python | • HTML/CSS | • Machine Learning |
| • JavaScript | • SQL | • MCP Servers |
| • React.js | • Firebase | • RAG Pipelines |
| • Next.js | • Prompt Engineering | • Vector Databases |

PROJECTS

NCERT AI Learning Assistant using MCP

- Python, MCP, Claude AI, RAG, Vector Databases
- Built an AI-powered study assistant using MCP servers and vector embeddings for semantic retrieval over NCERT textbooks, enabling intelligent question answering and conversational learning workflows.

LifePath — Interactive Decision Simulator

- React.js, Firebase, Realtime Systems
- Developed a multiplayer real-life decision simulator with branching story modes, classroom interaction, and real-time synchronization for collaborative learning experiences.

ChickenPox Detector AI

- TensorFlow, Flask, React.js, Machine Learning
- Created an AI healthcare application combining image classification and symptom analysis for preliminary chickenpox detection using machine learning workflows.

Pranspanda Theatre — Smart Seat Booking System

- Python, Flask, Booking Systems
- Developed an interactive seat booking platform for college events, enabling dynamic admin-controlled seating layouts and real-time participant reservations.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science Engineering **September 2023 — May 2027**
VIT Bhopal University

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Sanskrit.
- **Certifications:** Introduction to Generative AI — Google
 - Python Certifications — Kaggle
 - Problem Solving — HackerRank
 - MATLAB Certification
